IMMUNIZATION

The best choice of vaccines for your trip depends on many individual factors, including your precise travel plans. Vaccines commonly recommended for travelers to Africa include those against Tetanus, Diphtheria, Polio, Typhoid, Hepatitis A, Hepatitis B, Yellow fever, Malaria Rabies and Meningitis.

Certificate is required for entry into, or travel between, some African countries. Several of these vaccines require more than one dose, or take time to become effective. It is always best to seek advice from your doctor on immunization well in advance, if possible around 6 weeks before departure.

The government of Tanzania requires proof of yellow fever vaccination upon arrival if you are traveling from a country with risk of yellow fever.

For Malaria, talk to your doctor about how to prevent malaria while traveling. You may need to take prescription medicine before, during, and after your trip to prevent malaria, especially if you are visiting low-altitude areas. See more detailed information about malaria in Tanzania.

NORDKETTE JEWEL OF THE ALPS

<http://nordkette.com/en/>

The mountain at the heart of Innsbruck. The Nordkette is part of Austria's largest nature park, the Karwendel Nature Park, and can be reached directly from Innsbruck city centre in just a few minutes! The breathtaking 360° view leaves an impression, with the capital of the Alps on one side and Tyrol's most extensive conservation area on the other.

THE ENVIRONMENT

The wind outside is howling, carrying with it the caws of alpine choughs [crows]. Huge screes crawl over the craggy mountain flanks. The terrain drops steeply and far below in the wide Inn Valley the many rooftops of Innsbruck come into view. The upper station of the Nordkette Cable Railways is the gateway to the high alpine terrain of the Karwendel. The Hafelekar Peak (2,334m) can be easily reached in just 10 minutes via an easily negotiated path. When you reach the top, take in all the majestic mountain peaks as far as the eye can see. The view from the city up to the Nordkette is fantastic, but it is a different story when you are on the top of the mountain looking down. You just cannot compare it. The hustle and bustle of everyday life seems very far away.

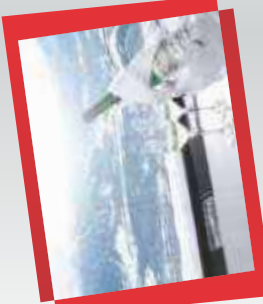

THE HUNGERBURG

funicular enables visitors to reach the Hungerburg in just 8 minutes. There are several stops along the Hungerburg in just 8 minutes, which is a favorite among families way including the Alpine Zoo, a short walk across Altermann Buhl Square, named after the world-famous Austrian mountaineer, leads visitors to the cable car station.

THE SEEGRUBE RESTAURANT

The Seegrube, at an altitude of 6,250 ft. invites visitors and locals alike to relax, unwind and take in nature at its very best. If you enjoy a hearty breakfast, then the Seegrube Restaurant is the place for you. Start the day with a great breakfast and enjoy the wonderful panorama at the same time. Breakfast is served daily from 9 am. Jazz fans will enjoy our live-music brunch which takes place every Sunday in July and August. Indian snacks and lunches are served.

THE ALPINE ZOO

What could be nicer on a quiet, sunny day than a trip to the zoo with the family, your partner or even on your own? The Alpine Zoo is on the sunny side of the Inn Valley, directly at the foot of the Nordkette and above the rooftops of Innsbruck. The zoo is the only one of its kind worldwide. Europe's highest-lying zoo (750m) is also easy to get to. It is not far from the city centre - a short walk will take you directly there. However, if you are not in the mood for walking, you can take the bus or the modern Hungerburg Funicular. The funicular has its own station very close to the zoo entrance and is very popular among families.

A UNIQUE EXPERIENCE IN BRUSSELS!

Mini-Europe is above all an "invitation to travel". The chimera of Big Ben, the gondolas in front of the Doge's Palace, the Grand-Place in Brussels, the Acropolis... an animated tour with visual and sound effects of 360 miniatures and attractions that you won't find anywhere else.

The best miniature park in Europe. All the monuments have been recreated down to the smallest detail. Big Ben is 4m high. With its height of 13m, the Eiffel tower projects above a 3-storey building! And yet all the buildings are on a scale 1 to 25.

All kinds of working models. Be surprised by the eruption of Vesuvius or the fall of the Berlin wall, watch the launch of Ariane V and marvel at many other working models, for both young and old.
